AUTOPOD FAQ

Q: What are the system requirements for AutoPod?
A: If your computer can run Adobe Premiere Pro you should be good. You need Adobe Premiere Pro 2023 or a later version of Premiere 2022.

Q: How do I use AutoPod?
A: Sign up through our website autopod.fm. You will get an email with a key.   Download and run the installer. Your username is the email address you signed up with. After the installer runs, open Adobe Premiere Pro 2023 or a later version of 2022, start a project, and then enable the extension from the top menu by going to Window -> Extensions.

Q: How do I find the AutoPod extensions in Premiere?
A: Once you open Adobe Premiere 2023 or a later version of 2022, open a project. Do not just stay on the landing page. Then in the menu up top navigate to Window -> Extensions

Q: Can I use the Multi-Camera Editor with a single audio source/ a mix-down?
A: No, AutoPod is designed for multiple cameras and multiple unique audio tracks. It needs separate audio tracks to properly make the editing decisions.

Q: Can I use the Multi-Camera Editor with a single speaker?
A: No, AutoPod is designed for multiple cameras and multiple unique audio tracks.

Q: Is the software available for other editing software such as DaVinci or Final Cut Pro?
A: Currently AutoPod is released for only Adobe Premiere Pro. There might be future enhancements that include other editing software, but we cannot currently commit to a timeline.

Q: Can I use AutoPod on multiple computers?
A: The license is for one computer. If you need to switch computers you can do so at https://www.autopod.fm/switch-computers

Q: Is there enterprise pricing available?
A: Currently the pricing is for a single computer. At this time there is no enterprise pricing available.
